N. Y. Tribune. The Black Regiment in Cuba.

The plan recently adopted in Cuba, of enlisting ders. black and mulatto soldiers, is likely to prove unsuccessful, if not an entire failure. The fellows are too obstreperous, and will not be controlled. The intelligent Havana correspondent of the Charleston Courier, under date of June 12, relates some events of recent occurence, which go far to sustain this state-

In the early part of the last week, some of these black soldiers had congregated in a drinking shop without the walls, where they were engaged in krinking and making use of obscene language, in fact, creating a disturbance. There already exists an amount of business association between Wilmington and this place, largely exceeding that with any other town in this part of the State, and with a direct connection by railroad, it is evident it must be greatly increased. If the western trade is an object worthy of the attention of Wilmington, could she possibly do better than to come here? If the travel is any part of her aim, would she not be more likely to succeed by a road to this place, than by building one which would draw from with maze her Manchester line a portion of the travel that now reaches her by that route?

These are mere glances at the subject, but are intended to direct the attention of our Wilmington friends to more extended examination and reflection. The people of this section are sensible of the importance of the present movement, and will in due time take some action in reference to their particular interest, and what they believe to be the interest of the State; and they hope their Wilmington friends will agement equal to the merits of the subject. - Salisbu-

LIPPITT'S SPECIFIC. FOR THE CURE

Dysentery, Diarrhou, and Summer Complaint. N presenting this justly celebrated Medicine to the pub-I lic, we make no rash assertions of its efficacy, nor is any hope held out to the afflicted which facts do not warrant. This remedy having been for years used in this place, for the cure of the above diseases, and those appertaining to the same class, the Proprietor has been induced to offer it on a more extensive scale, with a view to lessen the amount of human suffering. I have never known it to fail when the directions have been strictly adhered to. Many useless nostrums have been palmed upon the public, and I hesitated for some time, until thoroughly convinced of its efficacy.
